AMENDMENT TO THE ABSTRACT OF THE DISCLOSURE

Please amend the Abstract of the disclosure as follows:

~~The present invention is directed to novel polypeptides and to nucleic acid molecules encoding those polypeptides. Also provided herein are vectors and host cells comprising those nucleic acid sequences, chimeric polypeptide molecules comprising the polypeptides of the present invention fused to heterologous polypeptide sequences, antibodies which bind to the polypeptides of the present invention and to methods for producing the polypeptides of the present invention.~~ The present invention is directed to novel antibodies that bind to polypeptides encoded by nucleic acids that are differentially expressed in melanoma tumors.
